

## Early RARE SA/NSKK dagger AUG. KULLENBERG

Price:€1,00

### Product description

Early RARE SA/NSKK dagger AUG. KULLENBERG, SOLINGEN. According to Siegert rarity scale it is "9" an this means that only around 1000 pieces were produced. I'm aware that this is not a mint piece but tell me how many daggers of this makers have You seen in Your life ? Dagger comes with interesting scabbard with 3 layers of coloring. First one is chemical black, then black paint and as the last one is brown paint. That is why I do not determinate if it is SA or NSKK but rather tend to SA. Scabbard has magnetic fittings. It is really interesting rare example worth to own in the collection if You collect makers.
