

EARLY SA DAGGER - KREBS

Price:€1 000,00

Product description

Early production very nice SA dagger by famous maker KREBS. This dagger has beautiful full crossgrain blade with deep dark etching. All fittings are nickle silver. It has some chips on the handle and throat is not so strong keeping blade as it should be (blade sits tight but goes in and out much easier than normal). Except that dagger looks great and heart of this one - BLADE - is stunning.
